New QPS Capacity Package

SIX Swiss Exchange AG has introduced new Capacity Packages for Market Makers and Liquidity Providers for trading in Structured Products with SWXess Maintenance Release 8.2 (SMR8.2). The capacity for quotes per second has been divided into “dedicated capacity” and “shared capacity”. The participants can purchase and manage both “dedicated capacity” and “capacity packages with dedicated or shared capacity” based on their needs.

In addition to the four existing Capacity Packages for dedicated and shared QPS capacity, the Swiss Stock Exchange offers the following new QPS Capacity Package to Market Makers and Liquidity Providers from 1 August 2022:

QPS Capacity Package	Number of dedicated QPS capacity	Number of shared QPS capacity	Price per month for QPS Capacity Package
QPS CapacityPackage 4	None	4,000	CHF 25,000

Each Market Maker and/or Liquidity Provider can still choose a maximum of one of the offered QPS Capacity Packages against a payment of a monthly fee.

Changes of QPS Capacity Package are possible with effect from the beginning of any given month and must be notified to SIX Swiss Exchange AG in writing using the corresponding [Reallocation Capacity Form](#) at least three calendar days in advance.
