

## Communiqué No. 2/2020

of 20 May 2020

### ***Introduction of Trading-At-Last: adjustment to publication times for ad hoc notices***

SIX Swiss Exchange will be introducing a new trading period, "Trading-At-Last" (TAL), with effect from 22 June 2020. TAL will take place immediately after the closing auction at 17:30 (CET) and will last until 17:40 (CET).

### **Adjustment to publication times for ad hoc notices**

Issuers must inform the market of any potentially price-sensitive facts 90 minutes before the start of trading or after the close of trading where possible. The introduction of TAL means that stock exchange trading will now close at 17:40 (CET). This will extend critical trading hours by 10 minutes.

As a result, and with effect from 22 June 2020, ad hoc notices must be published before 07.30 (CET) or after 17:40 (CET).

The [Communiqués published by SIX Exchange Regulation AG](#) are available on the internet in German, French and English.
